Re: Certification for EQT Midstream Transceiver
FCC ID: Z3N-MDS-AMP

REQUEST FOR CONFIDENTIALITY

Pursuant to FCC 47 CFR 0.457(d) and 0.459 and IC RSP-100, Section 10, EQT requests that a part of the subject application be held confidential. Schrader has spent substantial effort in developing this product and it is one of the first of its kind in industry. Having the subject information easily available to "competition" would negate the advantage they have achieved by developing this product. Not protecting the details of the design will result in financial hardship.

1. The Block Diagram includes internal oscillator frequency information, and the theory of operation contains extensive product detail, both of which the manufacturer considers to be proprietary.

Permanent Confidentiality: EQT requests the exhibits listed above as permanently confidential be permanently withheld from public review.

Short-Term Confidentiality (FCC Only): EQT requests the exhibits selected above as short term confidential be withheld from public view for a period of 45 days from the date of the Grant of Equipment Authorization and prior to marketing.

If there are any questions regarding this request, please contact me at the above address or call 734-252-9785, fax 734-926-9785 or e-mail joe@wrtest.com
